\* - Sodium not reported in week 1 messaging because not considered a contaminant of concern. One of the two homes was using a water buffalo.

Week 2: 7 exceedances at the tap, 2 at the wellhead. 1 of 7 tap exceedances had a reverse osmosis treatment system with a secondary tap that was below 20,000 u/L.

\*\* - Reporting error on HW-22.

\*\*\* - Week 2 reporting was based on exceeding trigger level, not SMCL. Week 3/4/5 reporting based on SMCL.

\*\*\*\* - 2 reported included 1 that was at well, but treated at tap. Final total includes only tap results > 50 ug/L.
